FOREWORD

This gazetteer contains about 4,300 entries for places and features in Liberia. The entries consist of standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The density of name coverage corresponds to that of maps at the scale of 1:125,000. Entries include the names of first-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the places and features named can be identified and located on the following maps:

Liberia, Planimetric Maps, Coast and Geodetic Survey, Washington, 1955-56; scale 1:125,000; complete coverage.

Liberia, Liberian American Swedish Minerals Company (LAMCO) Joint Venture, 1961; scale 1:125,000; coverage of the middle third of Liberia from the coast northeastward across the country.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved

for a feature, each is identified in parentheses and any or all may be used. All names are listed by the specific element; thus Gulf of Guinea is listed as Guinea, Gulf of.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Liberia some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADM	first-order administrative division (county)
AIRF	airfield
AIRP	airport
AIRQ	abandoned airfield
BAY	bay
CAPE	cape (seaward end of a projection of land of such position and size as to affect the course of ships)
CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody)
CNS	concession area (grant of land by the Liberian Government to a foreign company, for a specific time, to encourage economic development in mining, agriculture, or forestry)
COVE	cove

CRKT	tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
CST	coast (broad zone paralleling the margin between land and sea and overlapping both)
ESTA	plantation (rubber)
FLL	waterfall
FRST	forest
GULF	gulf
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
HLLS	hills
ISL	island
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)
MTS	mountains
PCLI	independent political entity (republic)
PK	peak (separately named summit on a more extensive elevation)
PPL	populated place (city, town, village, settlement)
PT	point (relatively minor projection of land into a waterbody, or its extremity)
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
RF	reef(s) (offshore consolidated-rock hazard to navigation with a least depth of ten fathoms or less)
RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
RKSW	rocks in water

RKW	rock in water
RPDS	rapids
R&TN	railroad station
STW	stream
STMD	distributary (secondary watercourse carrying part of the drainage of a larger stream into another waterbody; characteristic of deltas)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative division (county) in which the place or feature is located, as listed below:

53500	Liberia (general)	53505	Grand Bassa County
53501	Grand Cape Mount County	53506	Nimba County
53502	Loffa County	53507	Sinoe County
53503	Montserrado County	53508	Grand Gedeh County
53504	Bong County	53509	Maryland County

The general number (53500) is used for international features and for features in two or more first-order administrative divisions.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D. C. 20240. A statement of the source of the correct information will be helpful.
